

How to Measure

The Showplaz has a very basic way to measure your Project. We asked you to draw your diagram as is currently in the area to be remodel and provide with linear measurement.

- 1.- Draw your kitchen looking down (eagle view).
- 2.- Draw the current location of your appliances and sink
- 3.- Is there a window somewhere. Length and depths
- 4.- Do you want cabinets all over Top and Bottom?
- 5.- Is there a pony wall, and island or peninsula and their measurements wide and long
- 6.- Is there a place that is not square but triangular? If so please measure from the corner to the front, The front and the linear in each wall side.
- 7.- Is there a small countertop in between the Stove, Pantry, etc. Please add the front measurement
- 8.- Upload you're drawing on the Website TheWhowplace.com in the Drop Box. And a couple of pictures.
- 9.- You may also email them and get a quote the same or next open business day at the latest or call for a measurement in home if you are ready, a fee of 250.00 will be charge before setting the appointment. (This will be applied to your total payment in your final design, if you decide not to go with us and the design / measurement are done, you will not get a refund (Final)). It's that fast
- 10.- GRANITE: will be measured and cut on site. Which we will need an open area 10x10 to work. And finished the installation on the same day. CABINETS: After your Down payment we will send our Interior Designer to your home with some samples
